

MarkSmart™ o FieldGuide™ Set

Patent Pending
#MSFG-4

By reducing field marking and measurement to the lowest common denominator, eg; one and five yard increments, the MSFG simplifies Field Marking, by allowing you to:

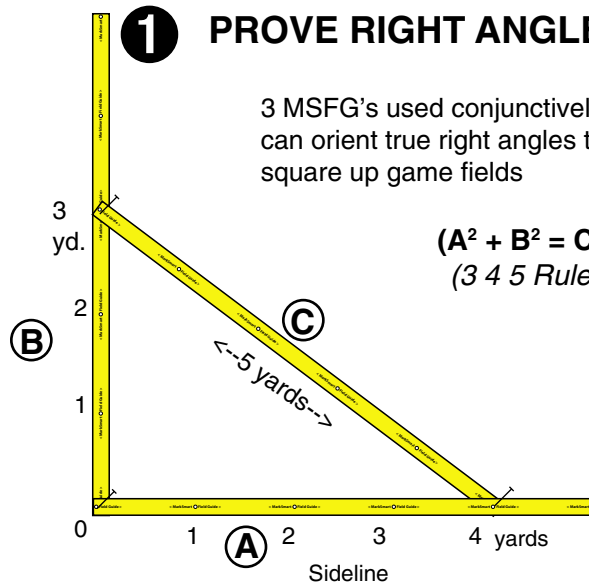

1 PROVE RIGHT ANGLES:

3 MSFG's used conjunctively can orient true right angles to square up game fields

$$(A^2 + B^2 = C^2)$$

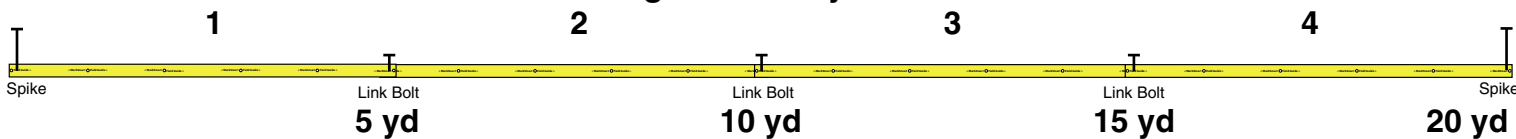

(3 4 5 Rule)

2 SIMPLIFY FIELD MARKING

This multi-purpose MarkSmart o FieldGuide lets you measure and identify critical locations. MSFG's can be used individually in 5 yard increments or linked together with Turf Spikes or Link Bolts, allowing a choice of distances or intervals to be marked or measured at one time...

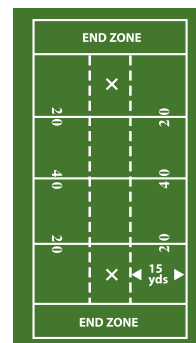

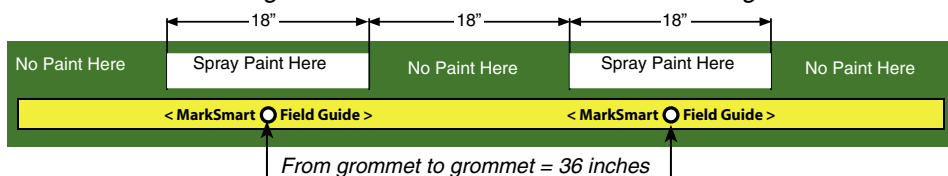

4 guides = 20 yards...

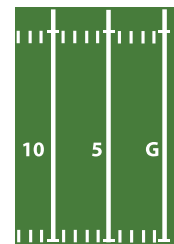

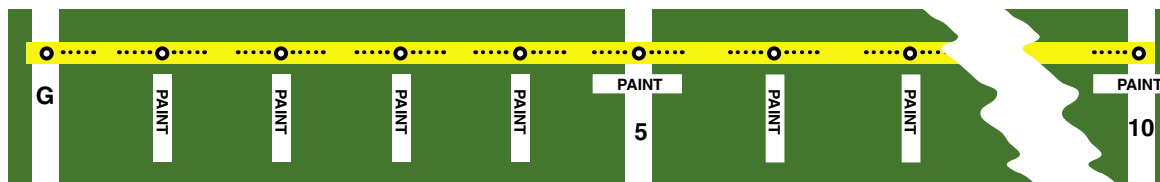

3 SIMPLIFY PAINTING HASH MARKS

(NORTH-SOUTH) PARALLEL to Sidelines for Flag Football

Paint alongside each "MarkSmart o Field Guide" logo.

OR... (EAST-WEST) PERPENDICULAR to Sidelines in Football
Align paint machine on each Grommet & push forward

Connecting 4 (5 yd.) MSFG's and paint 20 yards at a time!

4 SCRIBE CIRCLE OR ARC FOR SOCCER FIELDS

Link two 5-yard guides

Simply the BEST Multipurpose Tool to set up your Game Fields!
