All about MarkSmart™ ...products for Golf...since 1987

In 1987, our founders had an insight of a highly flexible system of products to mark Golf Course boundaries and hazards. It would be totally modular. Components could be mixed and matched... a veritable erector set for the Golf Course Superintendent.

Made from leading edge polymers, the products would be Maintenance-free. They would also allow players and workers to remove and replace markers, when necessary... to make a shot... or perform turf maintenance operations, without jeopardizing the integrity of the course design.

The original insight and concepts continue to be our watchword today... as we celebrate 30 years of product development. Innovative new polymer materials and processes enabled our product line to grow well beyond the early visions.

Several new products and techniques are shown in this 32nd Anniversary

Catalog. Wherever possible, we have enhanced the value of MarkSmart components you already own, through the addition of new Cap Styles, improved Post configurations and additional in-ground

installation methods. We have also enhanced our product offerings with products from Standard Golf Company and other highly reputable manufacturers. Our cost effective solutions continue to match the daily challenges faced by Superintendents and their staff. As a side benefit, our products speed playing times,

through better player awareness of hazards, distances and other informational and safety needs.

We invite you to review our catalog and welcome the opportunity to continue serving your needs, through our top notch distribution network.

Our Commitment:
98% of our products are

New **VERSALINE**™ Multipurpose Tee & Course Markers

...put a virtual Sign Shop at your service.

The message you want, quite simply, is **in the decal you design.**

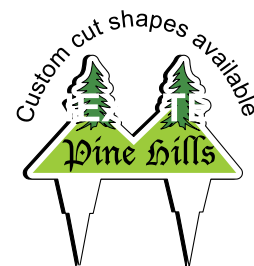

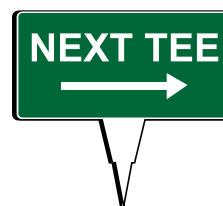

No limits to color, logos or any other special effects you want.

Standard sizes are 6 inch round, 10 x 5 inch rectangles or the custom shape you prefer.

6" diameter

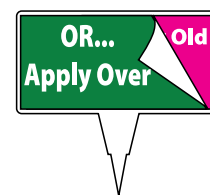

10" x 5"

All are:

- Made with 1/4" (6mm) clad aluminum with built-in spike
- Decals are UV stabilized, long life material applied in factory.
- Easy transformation to repurpose signs. Just remove existing decal and place new informative decal, or simply cover old decal.

TRANSFORMATION IS EASY:

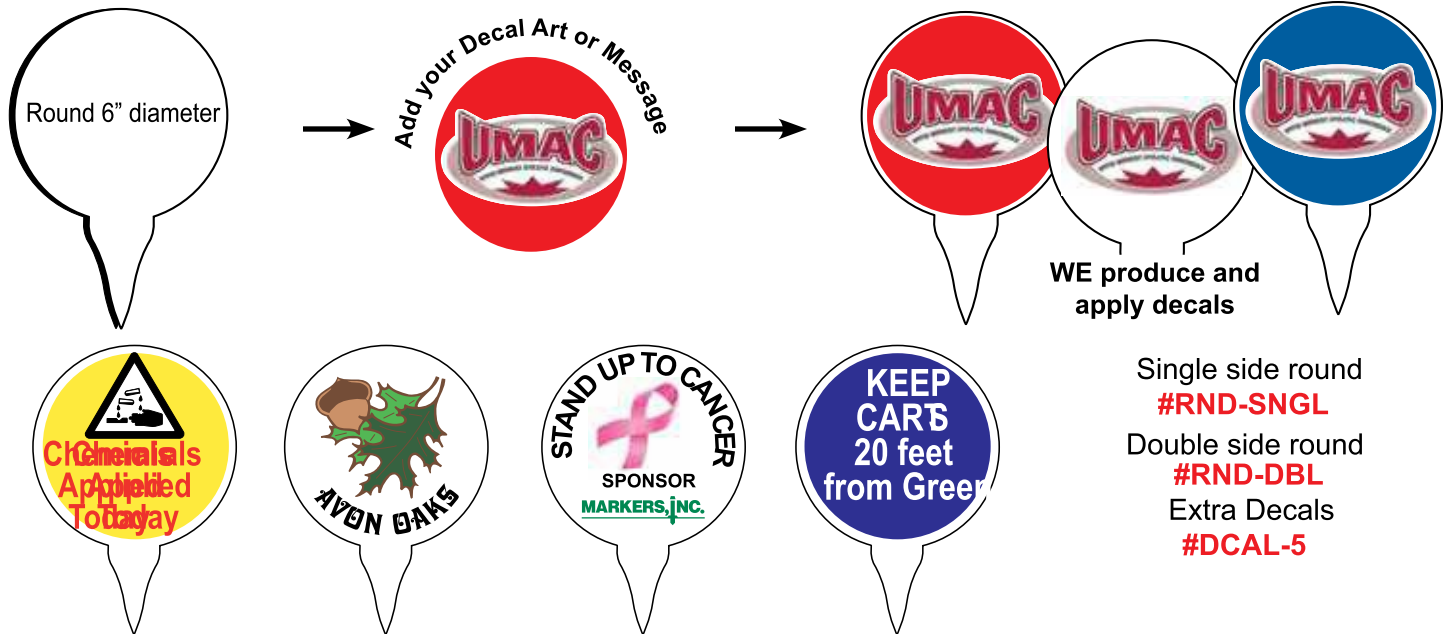

- Great for everyday course signs, tee box tee markers, or special events.
- The most advanced method to brand your course.

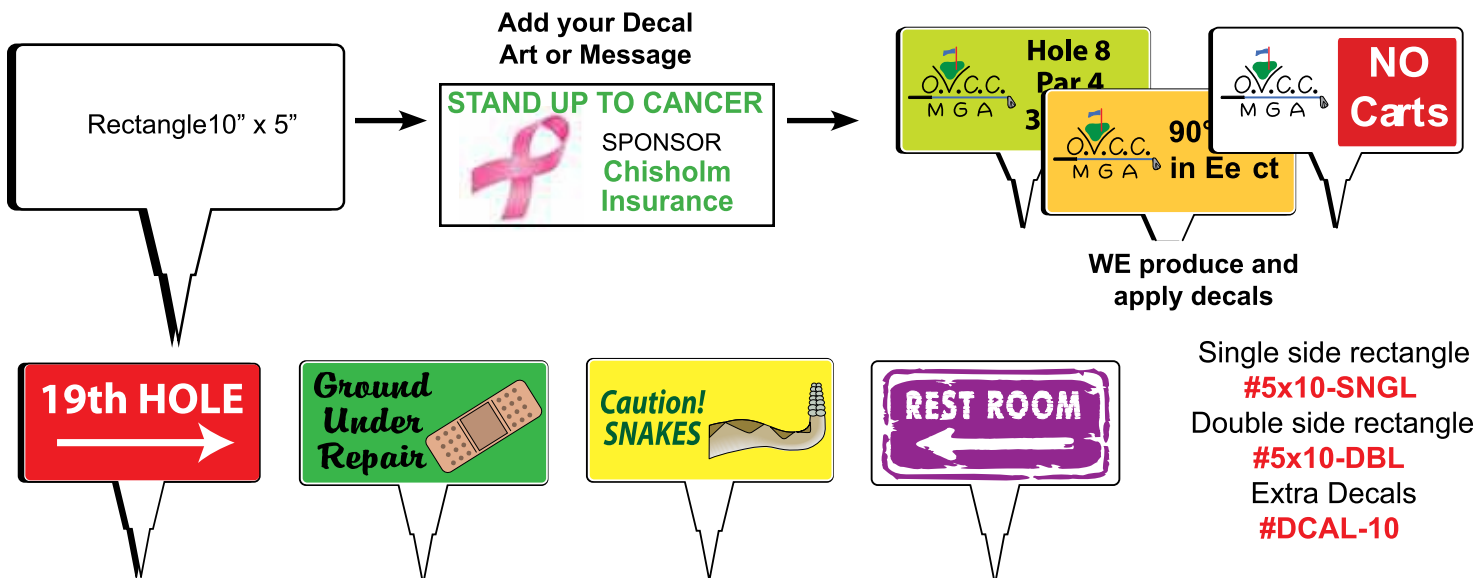

All prices include 1 or 2 sided decals
Editable Vector Art files required
(.pdf, .tif, .jpeg, or .eps)

Or... if you have a new idea,
our artists can create a file at minimal cost.

Start with our **VERSALINE™** blanks - 1/4" (6mm) Clad Aluminum
Then add DECALS with your logo or message to one or both sides

Easily Transform your course signs as needs change

Custom Shape VERSALINE™ Signs
We can custom cut almost any shape

Flags and Flagsticks

MarkSmart Soft Tube Flags and Economical Flagsticks...

Markers' Exclusive - value priced Flags & Sticks

All MarkSmart flags are Made in the USA using Dupont® SolarMax Nylon. This strong light weight material reacts best to wind changes, and it's UV stabilized, color-fast material accepts screen printing, transfers and embroidery customization.

- Engineered to provide long life
- Resistance to Wind & Sun
- Excellent Color Retention
- Easy-Spin, 2-Ply reinforced Soft Sleeve (handle)
- No scarring of the stick
- No tube or harness needed
- Patented Rotatable "Tab-Lock" feature

Reinforced Fabric Tube employs a heavy duty 2 ply handle and our Patented Rotatable Tab-Lock attachment assures easy spin. There is no need for costly tubes or harnesses.

FULL COVERAGE FLAGS

... with exceptional reproduction of your most intricate logo or graphic ... even photos.

There are **"NO LIMITS"**

Want ink coverage from edge-to-edge?????

NO PROBLEM... Dacron Flags are excellent for both outdoor and indoor applications. Dacron material is the best & most durable flag substrate available for complete and total colorizations for golf and all types of

The Dye Sublimation process heat sets UV protected inks directly into the Dacron material to achieve exacting imagery and the highest quality print capabilities. This process transforms the white Dacron material into the colors of your design, penetrating over 80% of the fiber, enabling reverse image show-through, resulting in a GREAT looking flag.

We can even do customized Diagonals or Checkered flags
...so let your imagination run wild!

We provide color reproduction in up to 8000 colors, plus gradients (tones). This process results in a GREAT LOOKING FLAG at a very reasonable cost.

KEY POINT... EACH and EVERY FLAG in your order can all be the same or personalized. Easy as: (1) Send us your art file, (2) create proofs for your approval, (3) Flags in hand in 7-10 business days.

Soft Sleeve or Tube Style

We can work from your Vector Art files (.pdf, .tif, .jpeg, or .eps)

Or... if you have a new idea, our artists can create a file at minimal cost.

Golf Cups & Accessories

Quality Products From
STANDARD GOLF COMPANY

RIJI Cups

- BrilliantWhite
 - Made of chemical-resistant polymers
 - Tapered sides allow easy removal from the hole
 - Meets all USGA regulations
 - Nine per carton
- Size 6" high x 4-1/4" diameter
#18200 RIJI Cup

Aluminum Cups

- 6"feet"on cup bottom prevents sinking in sand greens
 - Reinforced bottom webs add strength without adding cost
 - Meets all USGA and R&A specifications
 - PGA Approved for use on the Tour
 - Nine per carton
- Size 6" high x 4-1/4" diameter
#18303 Aluminum Cup

ST2000 Cups

Size 6" high x 4-1/4" diameter

- Aluminum model uses Bonderite, the most chip-resistant coating available. It also includes seven "feet"on the cup bottom that eliminates sinking.
- Plastic Model is molded with chemical-resistant polymers.
- BrilliantWhite Finish

#18222 Plastic , ST2000 Cup

#18333 Aluminum , St2000 Cup

NEW

Hybrid ST2000 Cup

The popular ST2000 Smart-Fit has a third configuration - NEW HYBRID, with an aluminum base and plastic molded walls, combines the best of our aluminum and plastic ST2000 models. The aluminum base gives maximum strength as the notched ferrule fits perfectly into place, eliminate twisting, sticking, and sinking. Plastic molded cup walls prevent chipping and provide a long-lasting finish. An aluminum bottom allows for the traditional sound of a ball hitting the bottom of the cup.

#18444

Magnum™ Hole Cutter

The Magnum has been field tested in all soils. It passed with flying colors thanks to its smooth lever action and selection of cutter shells. Includes helpful depth gauge. 4-1/4" dia.

- #28960** Straight Shell
Sharpened inside
- #28970** Scalloped Shell
Sharpened inside
- #28980** Scalloped Shell
Sharpened outside

Cup Setter

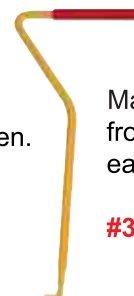

Set it, step on it and lift it out.
Sets cup to USGA-specs (2.5 cm) – below surface of the green.
Flattens and smooths crowning caused by hole cutters.
